4. SUMMARY OF PREVIOUS MEETING

Firstly, we populated some data to the database and update something to see its accuracy and quality. Then all team members talked about data quality assurance. This weekly meeting also talked about the following topics: Calculate indicators/data by us, not from API, have attempted to load data to the database. Keep trying to log in to the database to check if there are some problems we met.

5. GROUP MILESTONE

5.1 Overview

We have successfully obtained the price history information and technical indicators of most exchanges and added them to the local database. In addition, we also initially have a plan for checking the stocks that have been delisted. However, some issues remain to be resolved: NYSE stock information access, stock delisting information access on exchanges other than the United States, and more.
