4. SUMMARY OF PREVIOUS MEETING

Most development tasks were completed at this stage, we are focus on optimizing project functionality and gathering client feedbacks. We discussed about the new requirement requested By the client. Lastly, a testing milestone was flagged by the client.

5. GROUP MILESTONE

5.1 Overview

After the last client meeting, we discussed some parts that can be improved, including the efficiency of fetching fundamental data and some improvements on the relative string. We choose to fetch from the database and not from the API in the fundamental data part. Team needs to combine two databases. And lastly, we discussed and finished the final milestone report.
