MINUTES FOR 27th TEAM MEETING [27/2022]

1. MEETING DETAILS

Chairperson: Ratthapark Arnantayakan
Secretary: Ratthapark Arnantayakan

Date: 05 JUNE 2022
Time: 12:00 – 3:00 PM
Location: via Zoom

2. ATTENDEES

Ratthapark Arnantayakan	(Gavin)	a1829241
Tamarakuro Joseph Aduwari	(Joseph)	a1814359
Lei Huang	(Mario)	a1820323
Junlin Wang	(Grayson)	a1761503

3. ABSENCES.

-None-

4. SUMMARY OF PREVIOUS MEETING

The project has entered the final optimization and integration stage. Team members showed the latest optimization measures and testing efforts. The tasks assigned to compete uploading relative strength was discussed.

5. GROUP MILESTONE

5.1 Overview

The meeting was centered on finalising all codes in both technical and fundamental parts. All unused functions and files were deleted. Integration plan was discussed mainly about moving all finalised codes in to a newly created branch on GitHub called staging which final system testing will be performed before moving all codes to Master branch for submission. Subsequently, Docker was added into the project for demonstration purpose which was suggested by the client.

5.2 Presentation

-None-

6. INDIVIDUAL MILESTONE

Ratthapark Arnantayakan (Gavin) a1829241

Finalised codes in technical parts and add comments for all functions. Also, offered to learn using Tableau for presenting data as a backup plan in case graphical user interface can not be completed before the due date.

Tamarakuro Joseph Aduwari (Joseph) a1814359

Explained the final adjustments made to functions relating to updating database. Then, discussed plan to move codes to staging branch before master branch in order to perform integration tests and system tests on end to end before submitting in Master branch. Suggested to use React to develop graphical user interface (GUI) after having a web structure created in HTML. Demonstrated and tested Docker.

Lei Huang (Mario) a1820323

Explained the adjustments made to print function of fundamental data as requested by the client and discussed the progress of graphical user interface (GUI). Offered to complete first draft of GUI by the next meeting.

Junlin Wang (Grayson) a1761503

Discussed progress made and issues on integrating technical and fundamental parts. Also, explained plan to transition symbols from technical to fundamental for updating the database.

7. PROJECT MANAGEMENT

- – Agreed to move all codes to newly created branch on GitHub called staging before the next team meeting on Tuesday 8 June 2022

8. REQUIREMENTS ELICITATION

- - *No changes to requirements elicitation –*

9. ADJOURNMENT

- – The meeting ended at 3.00 PM.
- – The next meeting is a team meeting via Zoom on Wednesday 08 June 2022.
